Networking , Office work , Office tasks

SUMMARY

Detail-oriented Software Engineering Student at AWKUM with 3+ years of professional experience in enterprise systems and frontend web development. Bridging technical expertise in TIBCO enterprise solutions with modern web technologies (HTML5, CSS3, JavaScript). Passionate about design-first development approaches and building scalable, user-centric applications. Strong foundation in Software Development Life Cycle (SDLC) methodologies with proven ability to translate complex business requirements into efficient technical solutions.

EDUCATION

❖ Abdul Wali Khan University Mardan (AWKUM)

BS Software Engineering / Sept 2024 - Present

Building foundational expertise in programming logic and software development life cycles. Coursework includes Software Engineering, Operating Systems, Data Structures, and Database Management Systems. Focus on applying theoretical engineering principles to scalable solutions.

❖ The Professor College, Shewa Adda

HSSC Pre-Engineering / Marks: 985/1200

Achieved A1 Grade. Developed rigorous foundation in Mathematics and Physics with emphasis on logical reasoning essential for engineering disciplines.

❖ Govt. High School Serai Gohati, Swabi

SSC - Science Group / Marks: 887/1100

Achieved A1 Grade, demonstrating academic excellence and high proficiency in core scientific and mathematical subjects.

CORE EXPERIENCE

Web Development & Software Integration

Freelance / Consultant

Managed WordPress ecosystems and frontend projects leveraging HTML5, CSS3, and JavaScript. Provided specialized TIBCO consulting for enterprise-level system integration and workflow orchestration, ensuring scalable and robust inter-system communication. Also have two years experience in PMI tobacco company in IT support team.
